Figma

EXPERIENCE

Senior Editor

Kin Creatives Editors

Lead post-production workflows, oversee video editing quality, and mentor junior editors. Collaborate with creative directors to deliver polished commercial and narrative projects on tight deadlines.

2D Animator

Powerhouse Studio

Designed and produced frame-by-frame animations for short-form content. Translated storyboards into expressive motion graphics, maintaining brand consistency and visual storytelling.

UI/UX Designer (Freelance)

Self-employed / Remote

Created intuitive user interfaces and prototypes for small business clients. Conducted user research and wireframing using Figma, leading to improved engagement metrics.

PROJECTS & LEADERSHIP

Web Dev Portfolio Launch

Built a personal responsive website showcasing animation reels and UI case studies. Implemented HTML/CSS and basic JavaScript interactivity.

Animated Short: "Kinetic Flow"

Collaborated with a team of 3 to produce a 2D animated short featured in a local indie showcase. Responsible for character animation and compositing.

Video Editing Campaign

Edited a promotional series for a startup's social media campaign, reaching 50k+ views. Used advanced color grading and dynamic transitions.

• Open for entry-level opportunities in animation, video production, and front-end development •

Criteria	Claude	DeepSeek
Structure	More organized well	Less intuitive
Clarity	Easy to read	Not very choesive
Formating	Adheres to proper formats	A little bit messy
Overall Quality	Simple, clean and very proper	Modern looking but lacks clarity

Section 4 – Reflection

- **Which LLM performed better and why?**

For me, Claude definitely performed better and I think this is due to how great the platform and system is being maintained.

- **What differences did you observe?**

Claude gave me a pdf while Deepseek gave me code for html and css. Visually, Claude's output focuses more on structure and clarity, whereas Deepseek's output is more suited for web UI and social media.

- **What improvements did you make in your final resume?**

I wanted to use the output of Deepseek as inspiration but make it more cohesive. With that, I incorporated lines to separate the sections and varied the structure to enhance the overall clarity which is my main objective.

- **What did you learn about prompting?**

Although AI systems are extremely advanced right now, only a handful can actually generate a usable portfolio. I experimented with different LLMs but most of them weren't even able to give anything remotely cohesive with the sole of exception of Claude. For prompting, being more specific and detailed can help you achieve your desired result more quickly.

Section 5 – Final Resume

Matthew Lawrence F. Magallanes

PROFILE

I am a 20-year-old creative with strong proficiency in 2D animation and a background in Computer Science. My experience throughout these environments has helped me develop excellent communication, critical thinking, and leadership skills, allowing me to collaborate effectively and take initiative in team environments. I'm passionate about combining creativity and technology to produce engaging visual work and continue growing in the digital arts or any related field.

TECHNICAL EXPERIENCE

Freelance Work | **Music Video Storyboard Artist** 2022-2023

Worked with a Davao-based rap collective "Delinquent Society" to create a 2D animated music video. Although the project was scrapped, my contribution involved a complete detailed storyboard of the project.

Capstone Project | **UI & UX Design** 2024-2025

Conceptualized our final capstone project—a food delivery app service for Mapúa Malayan Colleges Mindanao—and independently designed the complete wireframe and user interface using the industry-standard tool Figma.

Freelance Work | **2D-Animation** 2024-2025

Worked with independent clients, both foreign and local, to produce standalone 2D hand-drawn animations.

Software Development Project | **Java Swing Application** 2025

Developed the final project for our freshmen year entitled "EcoDrive: Fuel Usage and Cost Calculator for Drivers". The application allows its users to calculate fuel consumption, estimate trip costs, and manage vehicle data.

EDUCATION

Starland International School | **Elementary**
2010-2016

Kids Camp Innovative Learning Academy | **High School**
2016-2022

Mapua Malayan Colleges Mindanao | **Senior High School (STEM)**
2022-2024

Mapua Malayan Colleges Mindanao | **College (Computer Science)**
2024-2025
